Description

Tired of living in a subdivision? Check out this home and 8.23 acres just on the outskirts of Rogers. This home is set off the main road atop a hill giving you a glorious view. This location gives the privacy you want while still being a quick drive to town. From the living room, you will see out over the hillside while natural light comes pouring in the huge windows. This split floorplan offers two guest rooms on one side of the house while the primary bedroom with its own bathroom is on the other. Then upstairs is another living room area, two large rooms, and a bath. There is even room for an additional kitchen making it ideal for multi generational families or potential rental income. This location is also wonderful next to the military park and for biking as Sugar Creek Road is right on an Adventure Cycling Association route. The house currently has some unfinished projects but plenty of opportunity to make some of your own choices without it taking long to finish. Video av
