Description

This home is better than new! Why bother with putting in landscaping, fencing the backyard, putting up blinds and drapes, upgrading the granite and backsplash? It's already been done for you in this stunning 3 bedroom/2 bath home. Plus, this one has a fourth room currently used as an office, but it does have a closet. The open split floor plan is highly desired. The Kitchen features a propane range and walk-in pantry. The granite counters and backsplash have been upgraded. The hardwood flooring throughout the main living area and Master Bedroom is exquisite! And when it's time to clean up...the central vacuum system is a huge convenience! The backyard has been fenced...and nothing but common area behind for plenty of privacy from your covered balcony deck. Very conveniently located near the Scotsdale Golf Course with easy access to the Jane Walmart. Nothing has been spared in this practically new home. Built in 2022...totally move-in ready. Welcome Home!
