Description

This fixer-upper offers an opportunity for your ideal retreat on 4 peaceful acres with easy access to Winslow and Northwest Arkansas. The property includes a mix of open and wooded land, with approx. 3 wooded acres featuring native plants. It is also set up for a chicken coop and attracts abundant wildlife. The home features 1,624 sq. ft. on the main level plus a basement with potential to be finished for living space, including plumbing for a bathroom and shower. The interior is filled with natural light, creating an inviting atmosphere, with beautiful views throughout. Several updates have already been completed, a new roof in 2021, new garage doors in 2019, a new septic system in 2016, and updated chimney and wood heat flues in 2019 supporting two wood stoves. One installed and functioning downstairs with the flue ready to set up a stove upstairs in the main living area. It does need updates such as foundation sealing and stabilization, new flooring, doors, and paint.
