Description

Major HWY 281 land frontage and small cave! Absolutely stunning views of surrounding pastures, hills, and Bull Shoals Lake. This property provides potential to place hilltop cabins, or your own personal home, with direct paved HWY 281 access. A road has been cut into the land that is best enjoyed with ATV's or even mountain bikes. (please do not drive a vehicle on this road as it is not deemed safe for this use as-is. Potential to become stuck trying to come up the hill.) 2 springs can be found on the land - making it ideal for wildlife and hunting. Red flags have been placed to help you find your way to both the cave and the springs. Undeveloped, this is a great spot for camping, hunting, and play of all types!
