Description

Experience architectural art at Lightbox, an impeccably furnished masterpiece by the acclaimed firm Hufft. Situated directly across from 8th St Market and the Walmart Home Office, this home offers an unrivaled urban lifestyle in the heart of Bentonville. Constructed with solid, cement-filled cinder block walls, Lightbox stands as one of the most weather-resilient and quietest structures in the region. The design is centered around a soaring clerestory that channels soft, natural light from the top floor down through the entire living space, creating a warm, radiant glow. The heart of the townhome is a stunning kitchen with 25-foot ceilings that rise into the clerestory, elevating the open-concept living area into a gallery-like experience. Every detail has been thoughtfully curated, from the refined finishes to the expansive spaces designed for calm and connection. This isn't just a residence; it's a modern sanctuary.
